ABOUT ME

Hello I am Kinfe Michael Tariku teen age programmer (Software engineer) I live in Ethiopia ,Adiss Ababa. I am C.E.O and CO-Founder of platform called KINFISHTECH - which helps Ethiopian to learn how to code with in across alot paid and Free course and YOUTUBE CHANNEL called KINFISH TECH which also helps Ethiopian how to code.- <https://bit.ly/KINFISHTECH> .

I am from Adiss Ababa university, I am really dedicated and consistent person when it comes to programming and problem solving which makes me to be rated as one of top performer of the decade in my senior highschool. I am more focused on the learning and experiencing a new thing .Which makes me to be recognized not only with in formal education but also delievering a student wise service via internet using website which i had built for students in my school - - <https://yaberusresultv1.netlify.app> which helps almost every grade 12 student to explore their result stats and analytics as well their university placement along with student who placed with them. To prove where all of determination as well dedication come from - i have done it alone with nobody else support in technical as well non technical . I am always proud of my self for being persisent and dedicated person .It is still in development to some large scale infrastructure web app that can be used for analysis And I have some skill on the problem solving which you can look it my leetcode account. But after I am really interested on solving community problem like what i have mentioned earlier .So I want to still shine and grow to deliver an optimized solution to my community in every possible way I could. This is why I am motivated to apply for this opportunity I want to pursue my dream in every ways I possibly get and I am ready to put all my dedication for such opportunity .

2019 - now

JOB EXPERIENCES

Software Lead Engineer and developer | KINFISH TECH

I served as a lead developer on my startup which is intended for developing awareness on solving problems as well programming for Ethiopian students and let them to them advance their career by giving them a tip along with the course.

2020 - 2022

Full Stack web developer | Yab sec and prep school

I served as a web developer which i have build the entire website alone which help grade 12 student to explore more about their matric result along with alot of statistics about their result in relative to other student and Placement result which let them know where university they get placed and their twins which is a person that are placed on the same university.

Go check out amazing projects that i have made so far at my github account: <https://github.com/Kinfe123>
